New EconoBoil and AutoBoil Touch-Free Tap Adaptor

Create a safer workplace

Zip Water are pleased to announce the launch of a touch-free adaptor for the existing EconoBoil and AutoBoil range, which allows the touch-free dispensing of boiling water.

Touch-Free Tap Adaptor

The simple to install accessory enables users to dispense boiling water by pushing back on the handle with a cup. It easily fits over the existing hand-operated handle, where there may be concerns around hygiene.

Key Features

- Simple to install and operate
- Touch-free dispensing of boiling water
- Easily removable for pot filling
- Manufactured from grade 304 stainless steel which is corrosion resistant, hard wearing and long lasting. This durability makes it robust enough for regular cleaning and sanitising
- Compatible with all current EconoBoil and AutoBoil models, or any older model that has the Classic Zip red tap

Order code: 95213
