Over 75 years of innovation

With unrivalled expertise in instant filtered boiling, chilled and sparkling water, Zip Water is known globally for being home to the Zip HydroTap, which dispenses pure-tasting water at the touch of a button.

Founded in Australia in 1947, we've always been innovators, advancing and perfecting our drinking water technology for decades. Today, we're proud to provide workplaces and homes, in over 75 countries across the world with the purest tasting water possible from our range of Zip HydroTaps.

Access the latest water filtration technology for pure-tasting water. Convenience at the touch of a button for instant boiling, chilled and sparkling water. Stylish designs and finishes to suit any kitchen and declutter bench space for efficiency.

Start drinking more, saving time, saving energy and seeing the benefits to your family's wellbeing from your very first glass.

Welcome to the Zip HydroTap family. We thank you for your support as we embark on another 75 years of delivering water at its best.

Mike Abbott, President Zip International

Water at its best with Zip HydroTap

Convenience of instant pure-tasting water at the touch of a button

With filtered boiling, chilled and sparkling, plus hot and cold water instantly, we offer the widest choice of water options on the market. So, whether you're filling a plunger of coffee, a glass of cool, crisp drinking water or a sink of washing up water, the choice is at your fingertips.

FILTERED BOILING

FILTERED CHILLED

FILTERED SPARKLING

FILTERED AMBIENT

UNFILTERED HOT & COLD

POWERED BY G5 TECHNOLOGY

Powered by our latest G5 technology

Embodying functionality, the HydroTap is ideal for those who want appliances that save time, reduce energy, are straightforward to use, simple to maintain and make life in the kitchen a whole lot easier.

Access pure-tasting water thanks to our advanced MicroPurity filtration. Say goodbye to bottled water taking up valuable fridge space and slow, energy-guzzling kettles cluttering your countertops. Welcome the convenience of cooking, sterilising bottles and making tea or coffee with instant boiling water and the handiness of pouring a perfectly chilled still or sparkling glass of water whenever you need it.

Experience water at its best with HydroTap at home

Pure-tasting boiling, chilled and sparkling water in an instant, delivered seamlessly with a Zip HydroTap. There is a HydroTap to suit every home. A Zip HydroTap can be a simple addition to your current kitchen, butler's pantry or beverage station or part of a larger kitchen renovation. Zip service technicians are expert professionals who can install your HydroTap in your home.

Add a HydroTap in addition to your existing mixer tap

Have the best of both worlds by adding a HydroTap over your kitchen sink to access pure-tasting boiling, chilled and sparkling water instantly. We have a wide range of HydroTap styles that will complement your existing sink mixer tap.

Choose a HydroTap with a new matching mixer tap

If you want to match your sink mixer tap with your new HydroTap, we also offer mixer tap styles in modern finishes to complement any kitchen.

Add a HydroTap onto a benchtop

Add a HydroTap on a kitchen island or butler's pantry for a designer hydration station in your home. A HydroTap can be installed on a counter with a matching font to catch any excess water.

The ultimate all-in-one solution for all your water needs

Our most popular HydroTap Celsius Plus All-In-One offers an integrated system with filtered drinking water, plus hot and cold tap water for washing up, all from the one elegant tap. Streamline your bench space and declutter your kitchen.

Zip HydroTap certified installation

For professional results, let Zip Water take care of the installation. Our skilled service technicians will install and set up your HydroTap so you can start enjoying instant pure-tasting water as soon as possible.

Experienced & certified installers

As certified installation specialists, we will install your new HydroTap including stone cutting for tap and/or font installations*.

Full national coverage

With more than 130 Zip certified technicians and 350 authorised service providers across the country, Zip Water can ensure coverage for your installation and service needs.

Experts in residential installation

Access our certified installation team, experienced in navigating around residential kitchens and equipped with all necessary tools to complete your HydroTap installation*.

Product demonstration

Zip HydroTap certified installation includes a product demonstration to show how to get the most out of your new HydroTap system and answer any questions you may have.

High customer satisfaction

We strive to deliver exceptional customer service and take pride in our customer satisfaction. Customers rate our service technicians 8+ out of 10, demonstrating our commitment to you.

POWERED BY G5 TECHNOLOGY

NATURAL REFRIGERANT R290 ENVIRONMENTALLY FRIENDLY

PowerPulse technology

Our innovative Zip PowerPulse technology maintains stored boiling water to within 0.2°C of your set temperature, meaning no energy or time is wasted waiting for water to boil.

Unique safety features

Zip boiling water is delivered smoothly and the tap has a safety lock to facilitate safe boiling water delivery.

Air-cooled system

Our unique air-cooled refrigeration system is 100% water efficient.

More eco-friendly refrigeration system

Uses R290 Low Global Warming Potential (GWP) refrigerant gas.

Auto-diagnostics

An advanced auto-diagnostics system continuously monitors your HydroTap's performance.

MicroPurity™ filtration

Inbuilt 0.2 micron NSF-certified filter incorporating innovative silver ion antimicrobial technology means healthier, pure-tasting water.

Smart Customisation

New optimised menu in the G5 HydroTap command centre allows you to select energy modes and usage settings for easier customisation.

Antimicrobial protection

Impregnated inside materials in contact with key water paths in HydroTap for added protection against surface bacteria.

CO_2 level indicator

New feature in the command centre shows when CO_2 gas is running low.

The latest innovation in Zip HydroTap G5
Our most eco-friendly HydroTap*

Designed for sustainability

Includes a more eco-friendly refrigeration system

Zip HydroTap now uses R290 refrigerant gas delivering a 95% reduction in Global Warming Potential (GWP) compared to the previous refrigerant gas used.

100% water efficient

Using air-cooling technology to deliver perfectly chilled water means the Zip HydroTap is 100% water efficient as no water is used in the chilling process.

Improved energy efficiency

The new front fascia and integrated airflow vent design in the command centre of the Zip HydroTap enables improved energy efficiency, allowing air to be expelled out of the cupboard more quickly and efficiently.

At high usage periods, the HydroTap continues to deliver consistent chilled water while optimising energy efficiency by up to 24%. In standby mode, the HydroTap is 10% more energy efficient while ensuring consistent chilled temperatures on demand.

POWERED BY G5 TECHNOLOGY

NATURAL REFRIGERANT R290 ENVIRONMENTALLY FRIENDLY

GOOD DESIGN AWARD® WINNER

Most Eco-Friendly HydroTap - 2025 Accolade Winner

in the Product Design Domestic Appliances category in recognition for outstanding design and innovation.

*when compared to preceding HydroTap models.

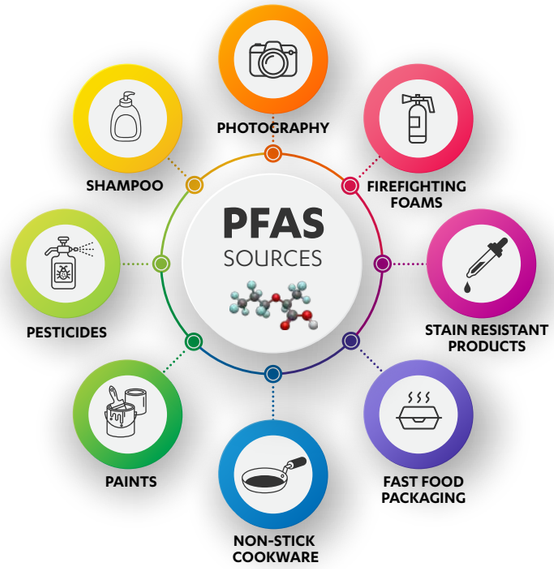

What's in your water—and what do our filters reduce?

Understanding the 8 most harmful contaminants

1 PFAS

Per- and polyfluoroalkyl substances (PFAS) are synthetic chemicals widely used in industrial and consumer products.

PFAS do not easily break down in the environment, leading to persistent contamination in water sources. Studies have linked PFAS exposure to serious health risks.

2 Microplastic Consumption

Microplastics consumption from drinking water is a growing concern with the average person consuming a credit cards worth every week.

Although microplastics are present in a variety of foods, drinking water—especially bottled water—is often one of the most significant sources of exposure, at times exceeding levels found in seafood or salt.

3 Chlorine, Taste & Odour

Chlorine and other contaminants can leave unpleasant tastes and odours in your water.

4 Particulates (>0.2 micron)

Particles in your water can cause it to be cloudy or discoloured.

5 Asbestos

Microscopic asbestos fibers can lead to severe health issues, including lung diseases and cancers.

6 Cysts (including Cryptosporidium & Giardia)

Cysts - such as Cryptosporidium & Giardia, can cause severe gastrointestinal illness upon ingestion.

7 Lead

Lead exposure can result in serious, long-term health problems, particularly neurological damage and developmental issues in children.

8 Bacteriostatic effects

Actively inhibits bacterial growth and biofilm formation, thereby maintaining the water's purity and long-term safety.

Zip MicroPurity 8 in 1 filtration

The clear choice for clean, pure-tasting water

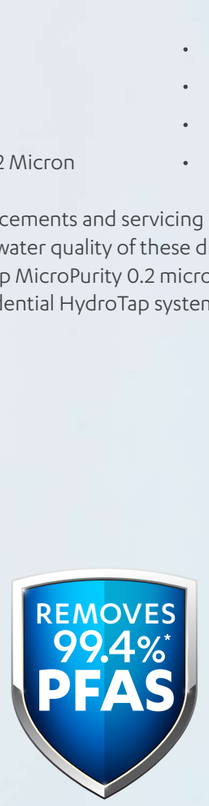

Choose a genuine Zip MicroPurity™ filter for your HydroTap**.** Our Zip MicroPurity™ filtration technology offers advanced protection against harmful contaminants, including PFAS and microplastics.

Our 0.2-micron filters are certified to reduce the 8 most harmful contaminants, even those you can't smell, see, or taste including:

- PFAS*
- Microplastics
- Asbestos
- Sediment > 0.2 Micron
- Lead
- Chlorine taste and odour
- Bacteriostatic effects
- Cryptosporidium, Giardia

Regular filter replacements and servicing are necessary to ensure optimal performance and water quality of these drinking water filtration systems. We recommend Zip MicroPurity 0.2 micron filters to be changed every 12 months for residential HydroTap systems.

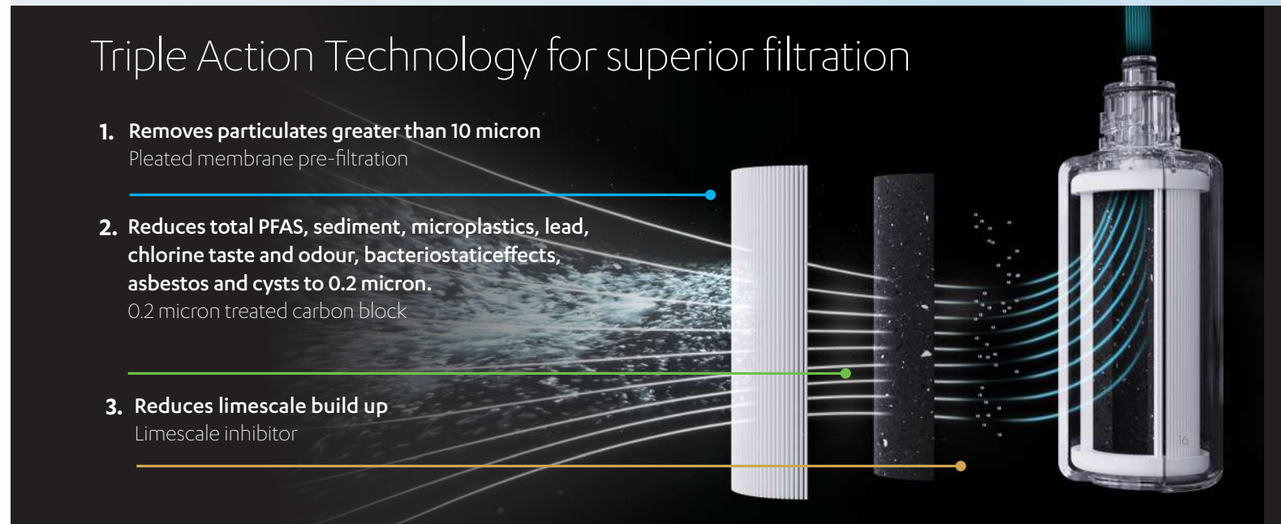

*Zip MicroPurity filters sizes 1 and 1.5 (93701 & 93702) are certified to NSF/ANSI Standard 53 to reduce 99.4% of Total PFAS (average reduction).

Lead Free · WRAS APPROVED PRODUCT · UPC · WATER QUALITY PLATINUM SEAL

Triple Action Technology for superior filtration

1. **Removes particulates greater than 10 micron**
   Pleated membrane pre-filtration
2. **Reduces total PFAS, sediment, microplastics, lead, chlorine taste and odour, bacteriostaticeffects, asbestos and cysts to 0.2 micron.**
   0.2 micron treated carbon block
3. **Reduces limescale build up**
   Limescale inhibitor

Zip HydroTap owners drink more water

Whether you're striving to live a healthier lifestyle, or boost the wellbeing of your family, staying hydrated is key – a feat that has never been quicker or easier with Zip HydroTap. In fact, our research shows that 80% of HydroTap owners drink more water than before*.

Transforming ordinary tap water into the purest-tasting filtered boiling, chilled and sparkling water, you'll not only start drinking more, you may also enjoy a host of mental and physical health benefits; from improved concentration, cardiovascular, muscle and joint health, right the way through to keeping your body cool, skin supple and cleansing toxins from the body.

With a taste that's truly irresistible, it's easy to see why.

The safest instant boiling water

Boiling water safety lock

Unique boiling water dispensing safety features requires a dual action reducing the likelihood of accidently activating the boiling water which means little ones are safer.

Cool touch tap

The HydroTap is cool to the touch and does not produce any spluttering steam, which means it is always safe to use.

Featured product Zip HydroTap Classic Plus in Brushed Nickel finish

Environmentally responsible

Independently verified Environmental Product Declaration

In another first for the world leaders in instant drinking water systems, Zip has released an internationally recognised and independently verified Environmental Product Declaration (EPD) for its HydroTap products. Developed with leading sustainability consulting company, **thinkstep***, it is the first EPD for an electrical product in Australasia, clearly demonstrating Zip's innovative and forward-thinking approach.

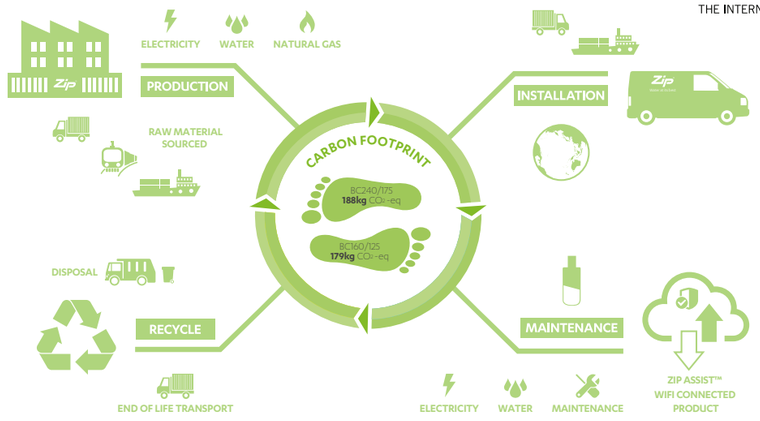

The HydroTap EPD details the environmental impact of the product throughout its life cycle, from the production and processing of raw materials, to manufacturing, distribution, installation, ongoing usage, maintenance and filter changing, right down to the end of the product's life.

Australians buy **over 580 MILLION** litres of bottled water a year.

Much of which ends up in **LANDFILL** and on our **BEACHES**#
